GUESTBOOK

Colyer Herefords second annual Internet Heifer Auction was open for bidding July 25 until closing July 31, 2003. This year the response was overwhelming! Over one hundred bidders registered to participate in this event which offered 20 Colyer Horned Hereford Heifer Calves and one bred heifer. We were pleasantly suprised to see so many new people taking part in addition to those we knew!

The auction began closing with the first heifer, 3031, at 6:00 p.m. and each successive lot closed every ten minutes thereafter. There were many exciting and tense moments watching the bidding go on over the 3+ hours until bidding on the final heifer was closed! We apologize for any computer errors that occured and promise to get things working better for next years sale.

Thank you to everyone that participated in this auction. We look forward to your feedback on how to improve upon the internet auction for next year!

Following please find the final results of the 2003 Colyer Internet Heifer Auction!
16 LOTS ~ GROSS: \$83,500 ~ AVERAGE: \$5,218

2004	BW	WW	YW	Milk	M&G	Fat	REA	IMF%
Spring EPD	2.8	51	80	24	50	0	+0.25	-0.04

Thank you to Daugherty Ranch, Clovis, NM for purchasing "Cruiser" for \$16,500.

His dam, 97071, is one of our favorite cows and his full sister has drawn the attention of every visitor to the ranch. Her average WWR is 112%.

Pictured at left - dam of "3148"
C 492D MS ADV 97071

It was not our intention to sell "3148" at this time but due to an injury to our sale entry we have decided to offer one of our very best. He is a herd bull in every aspect. He reminds us of "Pure Gold" at this age because of his heavy muscling down his top and into his lower quarter. He is also

extremely clean in his front end and sheath and is so correct and fault free on his feet and legs. His EPD's are impeccable with tremendous spread from Birth to Yearling. Birth weight is in the top 25% of the breed with Weaning and Milk in the top 2%. Yearling and REA is in the top 10% and MPG in the top 1%. An extra bonus is his 100% eye and scrotal pigment. "3148" is entered in Denver and we would show him as a yearling if the buyer so desires.
